

Arrow Electronics, Inc.

Fact Sheet

ARROW COMPANY PROFILE

Arrow Electronics, Inc. is a global distributor of products, services and solutions to industrial and commercial users of electronic components and enterprise computing solutions. With innovation, quality and service excellence at the heart of its business, Arrow employs an expansive global network of more than 310 locations in 51 countries and territories worldwide.

As a supply channel partner to original equipment manufacturers, contract manufacturers and value-added resellers, Arrow provides specialized services and expertise at each stage in the product lifecycle. With one of the broadest offerings in the electronics distribution industry through its more than 900 suppliers worldwide and a wide range of value-added services, Arrow helps customers reduce time to market, lower total cost of ownership and enhance competitiveness. No single customer accounted for more than 4 percent of the company's consolidated sales during the year ended December 31, 2009.

The company's wide spectrum of products, services and solutions includes materials planning, engineering and design services, demand creation, programming and assembly services, inventory management, financing and a comprehensive suite of online supply chain tools.
