Reducing the Complexity of Supply Chain Management

**Arrow’s Supply Chain Services**

Fluctuating markets and evolving customer demands make integrated supply chains critical to business success. Arrow offers strategic supply chain services that help optimize efficiency, enhance visibility, lower costs and inventory risks, and drive value and scale. Our team manages everything, from forecasting to logistics, stock management, trade compliance, and program management. We strategically locate our integration facilities to streamline integration and consolidate global routes to market. Whether you are a global enterprise or a growing business, we have the expertise to ensure that your products reach their destination on time and cost-effectively.

**Capabilities of Arrow’s Supply Chain Services**

- **Forecast Management**
  Convert your sales forecast into precisely timed orders to meet integration schedules.

- **International Logistics**
  Rely on efficient logistics and market access expertise to ensure timely delivery worldwide.

- **Trade Compliance**
  Ensure products meet quality, industry, and regulatory requirements.

- **Planning**
  Drive continuous improvement by managing supply planning and materials pipelines based on forecast history and tracked results.

- **Program Management**
  Manage quotes, orders, production, materials, and reporting seamlessly with dedicated tools and workflows.

- **Fulfillment**
  Fulfill customer product demand securely and on time.
Arrow Supply Chain Service Examples

Arrow customizes supply chain solutions to meet your business and customers’ unique needs. From procurement to distribution, our end-to-end solutions are designed to optimize each link in the supply chain, delivering tangible results and a competitive edge. Here are some examples of how we tailor supply chain services for our customers:

### Program Management
Arrow coordinates the flow of product into our integration centers to meet your demand.

### Forecast Management
Arrow creates component forecasts based on historical run-rates, trends, and sales cycles.

### Export Documentation
We get your product to where it needs to go by ensuring the correct documentation is provided for international shipments.

### Reporting
Our digital tools and reporting procedures give you insight into your supply chain.

### How Can Arrow’s Supply Chain Services Help you Meet Customer Demand?
