Subject: **EU Restriction of Hazardous Substances Directive**

Dear Valued Business Partner:

Arrow Electronics, Inc. or one of its affiliates or wholly owned subsidiaries (collectively, "Arrow") is in receipt of your inquiry regarding the regulation of hazardous substances in products in the European Union pursuant to the Restriction of Hazardous Substances Directive, as amended ("RoHS"). It is Arrow's practice to respond to such matters through its corporate offices.

As a global provider of products, services, and solutions to industrial and commercial users, Arrow takes seriously its responsibility to ensure its businesses are in compliance with both the letter and spirit of all applicable laws and regulations, including RoHS. Arrow complies with its obligations under RoHS by informing its customers in the European Union of the compliance status of products we distribute in that market.

Arrow continuously monitors regulatory developments relating to hazardous substances, including RoHS amendments. As regulations are updated, Arrow will continue to meet its obligations to provide information to its customers in a timely manner concerning the presence of covered substances in products.

While Arrow's operations outside of the European Union are beyond the scope of RoHS, we understand the importance of compliance to our business partners. Arrow is not a manufacturer of electronic parts and thus is not in a position to provide guarantees regarding the materials content or sourcing of materials in the parts it distributes. Product manufacturers are the best source of complete and accurate information regarding their products. For information on specific components, we suggest you contact SiliconExpert, a wholly owned subsidiary of Arrow, regarding their subscription and professional services offerings. SiliconExpert works directly with component manufacturers to obtain detail regarding substances contained in their products, offering customers the data they need to assess compliance with RoHS and comparable regulations. Please contact sales@siliconexpert.com for more information.

For any additional inquiries regarding Arrow's compliance with RoHS, please reach out to your Arrow sales representative.

Thank you for your continued confidence in Arrow.

Sincerely,

Arrow Electronics, Inc.
