Subject: **US Toxic Substances Control Act**

Dear Valued Business Partner,

Arrow Electronics, Inc. or one of its affiliates or wholly owned subsidiaries (collectively, "Arrow") is in receipt of your inquiry regarding the United States' Toxic Substances Control Act ("TSCA"). It is Arrow's practice to respond to such matters through its corporate offices.

As a global provider of products, services, and solutions to industrial and commercial users, Arrow takes seriously its responsibility to ensure its businesses are in compliance with both the letter and spirit of all applicable laws and regulations, including TSCA and other regulations related to per- and polyfluorinated substances ("PFAS") and persistent, bio-accumulative, and toxic ("PBT") chemicals in products.

Arrow continuously monitors TSCA rulemaking and is committed to meeting its regulatory obligations in a timely manner. With respect to the amended Chemical Data Reporting ("CDR") rule pursuant to TSCA Section 8(a), Arrow is working diligently to determine the presence of PFAs in the products it has imported to the United States.

Arrow is not a manufacturer of electronic parts and thus is not in a position to provide guarantees regarding the materials content or sourcing of materials in the parts it distributes. Product manufacturers are the best source of complete and accurate information on the substances used in their products. For additional information on specific components, we suggest you contact SiliconExpert, a wholly owned subsidiary of Arrow, regarding their subscription and professional services offerings. SiliconExpert works directly with component manufacturers to obtain detail regarding substances contained in their products, offering customers the data they need to assess compliance with TSCA and comparable regulations. Please contact sales@siliconexpert.com for more information.

For any additional inquiries regarding Arrow's compliance with TSCA, please reach out to compliance@arrow.com.

Thank you for your continued confidence in Arrow.

Sincerely,

Arrow Electronics, Inc.
